

18 JUL 1978

MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Caspar "Cap" Weinberger,
17 July 1978

1. I had a telephone call from Caspar "Cap" Weinberger. He's part of a new group of San Francisco businessmen who have formed a luncheon club. They are just getting into business and had asked that I be their first speaker on the 7th of September.

2. I told him that I was going to be in England that week; that I was speaking in California in August and didn't think I could return that soon; and that I really thought it would be into 1979 before I could possibly come back to California.

3. I told him, however, that I would take the liberty of letting him know when I saw a trip to California in the offing and would see if that would fit into his schedule.
